

Beets

Plot	Variety/Plant ID	Date Planted	Density*	Spacing btwn rows	Flavor**	Yield***	Fruit Size (in)	Total days till harvest
800 Raised Bed	Avalanche	5/29/2018	15 seed/foot	12"	4	2	3"	N/A

General Notes:

6/6 Appears most seeds have germinated

-Rabbits ate most beet tops, never got to harvest. Need animal enclosure

Fennel

Plot	Variety/Plant ID	Date Planted	Density*	Spacing btwn rows	Flavor**	Yield***	Fruit Size (in)	Peak Harvest
300	Antares F1	6/1/2018	6/20-ft row x two rows	2'	Never Tasted	All Plants produced good size fennel	10"	9-Jul

General Notes:

-harvested good-size fennel in early June; didn't taste as it should be cooked first

Radish

Plot	Variety/Plant ID	Date Planted	Density	Spacing btwn rows	Flavor**	Yield***	Fruit Size (in)	Peak Harvest
800 Raised Bed	Sweet Baby F1	5/29/2018	1 packet/3-ft row x 2 rows	8"	4	Reasonable size yield	3.5"	2-Jul
800 Raised Bed	Roxanne F1	5/29/2018	2 packet/3-ft row x 2 rows	2"	4.5	Slightly higher yield than Sweet Baby	2.0"	22-Jun

General Notes:

6/6 All seeds have germinated

-Sweet Baby was less spicy than Roxanne. I preferred Roxanne because it was more vibrant, but both were very tasty

Lettuce

Plot	Variety/Plant ID	Date Planted	Density*	Spacing btwn rows	Flavor (1-5) 1= lowest	Yield***	Size (in)	Peak Harvest
800 Raised Bed	Sandy	5/29/2018	1 packet/ 9 sq ft box	solid-seeded	3	High yield	8"	Mid July

General notes:

6/6 Potentially 2 seeds have germinated, if no significant germination by next week Wednesday, consider replanting (rodents seem to be eating seeds)

- the two plants were transplanted to a pot and were much more successful, produced a good amount of lettuce for just

Sweetcorn

Plot	Variety/Plant ID	Date Planted	Density*	Spacing btwn rows	Flavor (1-5) 1= lowest	Yield***	Fruit Size (in)	Peak Harvest
805	American Dream	6/4/2018	30 seeds/800 sq ft bed	6" x 30"	4.5	Medium		21-Aug

General Notes:

Harvested August 17 and 20. Good flavor, ears were smaller but tasty
