

Adopt-A-Garden Project 2024

West Madison Agricultural Research Station located at 8502 Mineral Point Road needs your help to maintain the beautiful gardens we put on display! The commitment varies by garden. Pick the one that fits your interest and schedule. Network with fellow Master Gardener Volunteers while getting your service hour requirements.

Rewards for your labor! Free plant material after thinning in Fall/Spring during cleanup; fresh fruit & veggies, woody cuttings for propagation, surroundings of beauty and tranquility, and lots of great learning experiences!! Contact Janet Hedtcke janet.hedtcke@wisc.edu to discuss/arrange a visit to help you decide on the bed(s) of your choice.

Name	Adopted status	Fall Clean up	Create/update map	Prune	Thin	Deadhead/de-stalk	Plant	Cut back scapes	Weed and mulch	Spray	Min. Freq*
